STONETRUST WORKERS' COMPENSATION ENTERS IOWA AND GEORGIA

Baton Rouge, LA – Stonetrust Workers' Compensation Insurance Company will begin writing workers' compensation coverage in Iowa and Georgia effective October 1st. This announcement follows the Baton Rouge based company's recent Financial Strength Rating (FSR) upgrade to A- Excellent by AM Best.

"We are excited to begin writing coverage in Iowa and Georgia and look forward to growing our "*First Choice*" brand in both states," said Stonetrust CEO and President, Michael G. Dileo. "This is a natural progression of our expansion strategy, and these markets were the next logical choices. We believe our commitment to providing excellent service and building strong relationships with our agent partners will be a good fit in both states." As a regional carrier, Stonetrust writes coverage throughout much of the southeast United States and most recently expanded into Alabama and Kansas in 2021.

About Stonetrust

Stonetrust is a Nebraska domiciled insurance company providing workers' compensation and employers' liability insurance in twelve states. Stonetrust provides statutory workers' compensation insurance to employers large and small, with a concentration in construction, wholesale, retail, manufacturing, and other service-related businesses.
